Reserves Balance Final

PROGRAM DESCRIPTION: The Reserve Fund exists in keeping with sound accounting principles of public fund management to minimize adverse annual budgetary impacts from anticipated and unanticipated District expenses.

By Board approved policy, this fund has been established for the orderly and timely maintenance of the District facilities to meet future demand and to maintain and/or improve the District's existing level of facility quality as well as to provide funds for the future acquisition of park lands when available and facilities as identified in the Master Plan, and to ensure cash resources are available to fund daily administration, operations and maintenance of the District without the use of "Dry Period Financing" from the County of Sacramento*

NOTABLE CHANGES: We have reduced the reserve by the amount the District paid out in 2012-2013 to employees that participated in the CRDEB plan. As the funds are disbursed, they will reduce this reserve account dollar for dollar. There is an additional \$30,128 still held in reserve that may be disbursed. We have increased the reserve by an additional \$6,135 for a total of \$36,810 towards the liability deductible to \$50,000. These additional reserves are paid by premium savings with the increased deductible.
